Dear Valued Customer;

We trust that your summer is going well! We wanted to take this moment to inform you of some changes at Superior Tramway Co, that will allow us to serve your needs better and make you aware of some personnel changes.

First, we have moved our engineering office and part of our fabrication shop into one, brand new building. This will allow better efficiency between design and fabrication. This also allows our records to be in one location so we can better answer your questions regarding past projects.

Russ Stone, P.E., has recently joined the engineering staff. Russ has a background in ski lift industry. He worked with Riblet Tramway through the 80's and early 90's. Russ will be a Project Engineer replacing John Ellis, P.E. who, due to health reasons, has been forced into early retirement. Unfortunately his battle with cancer is coming to an end.

Our engineering staff is now made up of:

Jim Ellis, P.E. (Principal Engineer)
