## **Hydraulic Equipment**

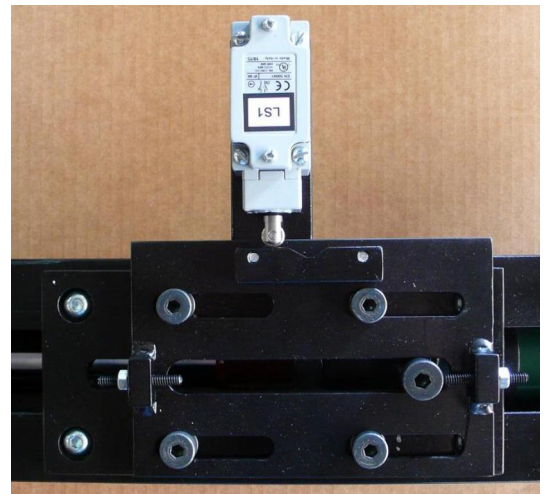

### **A1811 Pressure Intensifier**

#### **FEATURES**

- 1) Allows operation of a brake release cylinder at pressures greater than pump output.
- 2) Compatible with our DR-61, DR-63, & DR-64 pump units.
- 3) Pressure ratio: 3 to 1.
- 4) Brake release pressures up to 4,500 PSI standard, 7,500 PSI possible.
- 5) Pressure relief for brake cylinder.
- 6) Pressure gauge for brake cylinder.
- 7) Pressure switch for brake cylinder.
- 8) Limit switch for warning/stop before intensifier runs out of travel.
