Torsion Dampening Mod: A1875

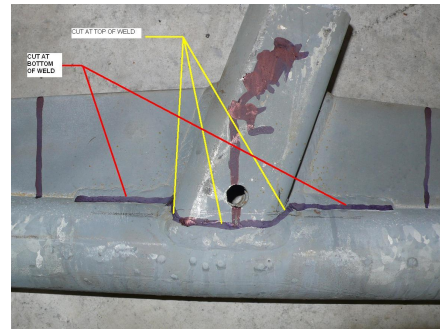

For Riblet Quad Bail Hangers

FEATURES

- 1) Dampening mod reduces stress on chair clips and haul rope.
- 2) Same technology and concept as our new A1871 quad hanger.
- 3) More economical retrofit option than new A1871 hanger.
- 4) Dampener bushings are inexpensive to replace.
- 5) Designed for 1-3/8"Ø haul rope and the CC-05A chair clip.
- 6) Bail can be field modified for cost savings.
- 7) Dampener coated with cold galvanizing for corrosion resistance.
- 8) Bolted dampener allows for easier field assembly.

Riblet hanger during conversion process.

Stem/Bail connection before mod

Stem/Bail connection after mod.
